EAT

Indulge your sweet tooth at the first international outpost of **Pâtisserie**, the Canberra café famed for its Freakshakes – think seriously over-the-top milkshakes jazzed up with salted pretzels, torched marshmallows, and more. For something less saccharine, there are burgers and salads to be had, too.

Beast & Butterflies is a swish 175-seater restaurant that specialises in “borderless cuisine” – essentially inventive Asian-Western dishes like Oriental-spiced lamb rack with steamed glutinous rice. Its aesthetic is no less imaginative, with lava lamps and tabletop television screens lining its 13m-long bar counter. msocial.com.sg/restaurant

STAY

New design hostel **COO**, which positions itself as a “societal” (a hostel revolving around social spaces and social media), features a design aesthetic that’s inspired by its Tiong Bahru locale – think a metal mesh entrance modelled after the estate’s retro gates, and an enormous abstract map of the neighbourhood rendered in neon. It also offers a unique digital messaging platform called COO Connect, which aims to bring together like-minded guests – true to the spirit of a backpackers’ community. staycoo.com
